ASGARD PAVLOV

asgardcreator.com ◇ pasgard9@gmail.com ◇ linkedin/asgard-pavlov/ ◇ github.com/AsgardPavlov

SKILLS

Languages
TypeScript, JavaScript, Python, SQL, Bash

Technologies/Frameworks
Next.js, React, React.Native, Django, FastAPI, Apollo/GraphQL/Prisma, HTML/CSS, Docker, PostgreSQL

EXPERIENCE

Owl Technology — Remote (Kazakhstan)
Full Stack Developer — *Jul 2022 - Present*

- Developing and maintaining Next.js, React, React.Native, Django, and FastAPI applications.
- Deploying and managing applications on AWS and Digital Ocean cloud services.
- Integrating third-party APIs (Stripe, SendGrid, Google, etc.).
- Releasing apps on Google Play Store.
- Providing feature technical details.

Usekilo — Remote (USA)
Full Stack Engineer — *Oct 2022 - Jan 2024*

- Developed and launched Kilo App's **beta** and **stable v1** versions for over **20k users**.
- Designed tools to streamline document migrations across **100+ gyms**, processing **500 PDFs** per gym, boosting operational efficiency.
- Integrated Cypress tests into CircleCI CI/CD, reducing bug discovery time, improving software quality and release speed.
- **Led frontend development**, collaborating with the product manager to define feature UI and creating original designs. Enhanced UX/UI, increasing user engagement through innovative, user-focused designs.
- Ranked **third among top** contributors in our monorepo, highlighting commitment to code quality and teamwork.

KozhinDev — Krasnoyarsk, Russia
Frontend Developer — *Jun 2021 - Jun 2022*

- Contributed to **open-source** UI ecosystem libraries, React-Steroids and React-Bootstrap.
- Developed SPA and SSR applications with Steroids.
- Implemented pixel-perfect design systems following the BEM class naming standard.
- Developed and maintained REST APIs using NestJS, TypeORM, and PostgreSQL.

PROJECTS

Real-time Chat App *github.com/AsgardPavlov/nest-react-native-chat*

- Developed a real-time mobile chat application using React.Native, Socket.IO, and NestJS with RabbitMQ for message brokering, integrated with OmiseAPI for payments.

Tuimaada Real Estate *github.com/AsgardPavlov/real-estate-nextjs*

- Translated a Figma design into a live Next.js web application, featuring Apollo-Client for GraphQL, Tailwind CSS for styling, and internationalization support (i18n).

CERTIFICATIONS

Full-Stack Web Developer nFactorial Incubator *PDF* — *2022*

Selected from over 4,000 applicants for Kazakhstan's largest software developer training program, completing an intensive 10-week course to become a professional software engineer.
